

CL-Class (from 2007)

Overview

The epitome of exclusivity.

As the most exclusive of all the Mercedes-Benz model series, the CL-Class Coupé defines the brand's leading position like no other car in the Mercedes-Benz product portfolio. As well as demonstrating the same unique brand of exclusivity that has always kept the CL-Class ahead of the chasing pack, the new model remains true to the traditional brand values. One immediately apparent aspect of the CL-Class is its powerfully elegant design. Equipped with four full-size seats, the exclusive 2-door model also boasts a distinctly elegant interior with a truly hand-crafted feel, not to mention a wealth of equipment details, a vast array of individualisation options, high levels of safety and stress-relieving comfort and, last but not least, prodigious power combined with virtuoso performance. The CL-Class is the epitome of exclusivity.

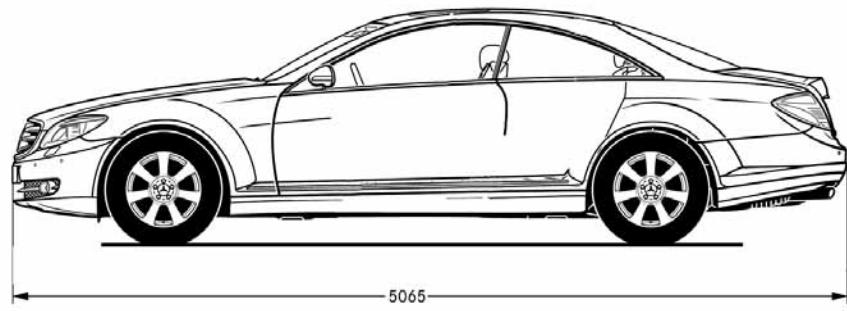

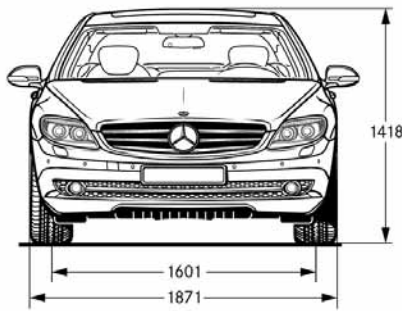

Did you know?

- Adaptive Brake technology features a hold function – which keeps the car stationary without the driver needing to keep pressing the brake pedal – and a hill start assist, which prevents the car rolling backwards in that moment when the driver is moving their foot from the brake to the accelerator.
- Intelligent Light System is a new generation of adaptive headlamps which automatically adjust to suit the current driving and weather situation. For example, a country light mode means that the low beam is distributed so that illumination of the left road edge is improved, providing significantly increased range of vision on both sides of the road. While a motorway mode increases the output of the bi-xenon headlamps at 56 mph, and at 69 mph the nearside headlamp illuminates the entire road width evenly to a range of around 120 metres.
- COMAND: The latest generation COMAND (Cockpit Management and Navigation Display) system with an easy-to-read 8" colour display, radio, CD/DVD Changer 6-disc (region 2 DVDs only) and PCMCIA slot, MP3 capability, allowing the audio, video, navigation and telephone systems to be controlled using the logically structured and intuitive menus. The hard-disc-drive (HDD) navigation system covering most of Europe, dispenses with the need for constant access to a navigation DVD or CD-ROM freeing the DVD player for audio or video use.
- Nano Particle Technology: A nano particle clearcoat is applied over the vehicles' paint colour coat. Ceramic particles less than a millionth of a millimetre are integrated into the molecular structure of the paint binding agent. The resultant extra hard finish provides unrivalled resistance to scratching –for example by car wash brushes.
- Pre-Safe® identifies critical situations when there is a detectable event such as skidding or heavy braking. Actions are then taken to maximise occupant protection prior to collision, such as: the repositioning of the front passenger seat, reversible belt tensioners and closure of the side windows and sunroof.
- Active Body Control (ABC) is a fully-active suspension, that allows control of the vehicle body motions and virtually eliminates body roll in many driving situations including cornering, accelerating, and braking. The ABC computer monitors body movement and vehicle level and adjusts the suspension accordingly. Features include: automatic speed-dependent lowering of the body which increases directional stability and reduces drag and fuel consumption, manual selection of comfort-oriented or sport settings and load-independent all-round self-levelling.

Press

"Every bit as impressive and imposing to look at as its predecessors, Merc's flagship coupe is a tour de force of technical showing off." **Top Gear**

Technical Data

CL-Class Standard Equipment

CL 500 - selection

7G-Tronic Sport 7-speed automatic transmission with Direct Select gearshift

17" alloy wheels (4) - 7-spoke design
8J x 17 (235/55 tyres)

Active Body Control (ABC)

Adaptive Brake with Hold function, hill start assist and Adaptive brake lights

Airbags - driver and front passenger, front and rear sidebags and windowbags

Alarm system with immobiliser and interior protection (MBSS3)

Automatically dimming rear view mirror and driver's door mirror

Closing aid for boot lid and doors

Cockpit Management and Navigation Display (COMAND)

Door mirrors - electrically adjustable, folding and heated with integral ambient lighting

Electric glass sunroof with Pre-Safe® closing function

Electric windows with Pre-Safe® closing function

Electronic Stability Programme (ESP®) with Acceleration Skid Control (ASR)

Front seats are electrically adjustable with easy entry function and heated

Headlamp Assist - automatic headlamp activation

Headlamps - Intelligent Light System incl. Bi-Xenon headlamps, active light function and cornering light

Leather upholstery and dark walnut wood trim with leather trimmed steering wheel

Luxury automatic climate control - two zone, includes digital display

Memories for front seats, door mirrors and steering column

Multi-function steering wheel with trip computer

Parktronic - parking distance sensors

Pre-Safe® - intelligent, anticipatory safety system

Rain sensing wipers - two-stage

Remote boot release and closing

Speedtronic cruise control

Steering column - electrically adjustable with Easy-Entry function

Tinted, noise insulating, infrared protective, laminated glass all round

Tyre pressure loss warning system

CL 600 - selection

(In addition to CL 500)

5-speed automatic transmission with Speedtronic cruise control

18" alloy wheels (4) - V12, 5-spoke design front: 8.5J x 18 (255/45 tyres), rear: 9.5J x 18 (275/45 tyres)

Plus the following which are also optional on CL 500

Keyless-Go

Front seats - comfort ventilated - dynamic multi-contour with massage and Pre-Safe® positioning function

Surround sound system - harman kardon LOGIC7® 14 high-performance loudspeakers and additional amplifiers

TV tuner - digital and analogue reception capabilities

Upholstery - Exclusive Passion leather includes alcantara roof lining

Wood and leather trimmed steering wheel

Head restraints, rear (2) - electrically folding & pneumatically raising

Electric rear roller blind

CL 63 AMG and CL 65 AMG

(additional features)

AMG high-performance braking system with composite brake discs front and rear

7G-Tronic 7-speed automatic transmission with AMG Speedshift and Speedtronic cruise control

19" AMG alloy wheels (4) - multi-spoke design front: 8.5J x 19 (255/40 tyres), rear: 9.5J x 19 (275/40 tyres)

AMG bodystyling (with CL 63 AMG-specific front and rear apron)

AMG sports exhaust system with two twin chromed tailpipes

AMG sports suspension (based on Active Body Control)

Upholstery - AMG Passion Leather

AMG instrument cluster with AMG menu including Racetimer

AMG sports seats

AMG sports leather trimmed steering wheel with silver coloured aluminium gearshift paddles

Options (selection)

Night View Assist

Distronic Plus - radar-assisted cruise control includes Brake Assist (BAS Plus), Pre-Safe® Brake and Parking Assist

Linguatronic - voice activation of telephone, satellite navigation and specific audio functions

Engines

	Cyls	cc	hp / rpm	Torque Nm / rpm
CL 500	V8	5461	388 / 6000	530 / 2800-4800
CL 600	V12	5513	517 / 5000	830 / 1900-3500
CL 63 AMG	V8	6208	525 / 6800	630 / 5200
CL 65 AMG	V12	5980	612 / 4750 - 5100	1000 / 2000-4000
